

50

“Elite” Years

1968 - 2018

national carriers
the “Elite” fleet

VIEW FROM THE WINDSHIELD

What were you doing in 1968? The average house cost \$15,000, Nixon was elected to his first term, and the Beatles released their “White Album”. Apollo 8 became the first manned spacecraft to orbit the moon, the Viet Nam war was in the middle of the “Tet Offensive”, and the Dow Jones ended the year at 963. The cost of a gallon of gas was \$0.32 and in Liberal, KS the Jacobson family were busy starting a truck line. National Carriers Inc.

“It is hard to believe that 50 years have transpired since starting NCI. We actually started by hauling cattle from Western Kansas and the Panhandle to our slaughter plant in Kansas City,KS and later started running reefers to the East Coast. I think I was 23 or 24 and had just quit rodeoing the year before and after a year in the packing house discovered that we needed truck service – especially since we were planning for the plant in Liberal. The 70’s were the most fun for trucking- we ran overweight, over length, over hours, hauled lots of loads without Operating Authority and delivered on time with a group of drivers and Contractors whose professionalism will never be matched. There will never be another time for trucking to be so much fun!”

Trudy and I appreciate your kind invitation to join you April 20 in Arlington; but unfortunately- due to other commitments will not be able to be there.Thank you again for remembering us- our time in Liberal will never be forgotten.”

*Best wishes,
Johnny Jacobson*
